

# 9676 Conveyor Ø500x9850 mm - drill cuttings

## Specifications

### Additional Information:

Product type:	Screw conveyor
Industry:	Offshore
Transported material:	Bulk material
Applied steel in product:	Hardox plate, Stainless steel
Surface treatment:	Stainless steel – acid pickled

## 9676 Conveyor Ø500x9850 mm - drill cuttings

### Short Description

#### **9676 Double screw conveyor:**

Transportation screw for cuttings with 3 inlet chutes. Inlet chutes are mounted with grids and adjustable guide plates. The guide plates can be adjusted manually.

#### **Features:**

- Housing/trough in stainless steel 1.4401 (AISI 316).
- Screw rotor in HARDOX 400 wear resistant steel
- Flexible intermediate bearings (long life time)
- Gearmotors and bearings painted in Norsok 501 system (special painting requirements for the Norwegian off-shore sector)
