

31577 Complete screw conveyor delivery for sludge transport

Specifications

Additional Information:

Product type:	Screw conveyor
Industry:	Waste handling
Transported material:	Biomass, Bulk material
Applied steel in product:	Stainless steel – heat resistant
Surface treatment:	Stainless steel – acid pickled

Short Description

Stainless steel screw conveyors for sludge transport

- Complete set of process screws for pyrolysis handling of sludge
- BEMA has undertaken manufacturing, assembly and trial run of all screw conveyors

Manufacturing

- Handling of production based on engineering drawings
- Manufactured in 1.4401/AISI-316 and similar steel types
- Welded in accordance with agreed certificates
- All processes documented
- Performed test-run in our factory
- Delivered from the factory to the final client destination
