

30412 Cutting screw Ø350x46000 mm

Specifications

Additional Information:

Product type:	Screw conveyor
Industry:	Offshore
Applied steel in product:	Hardox plate, Stainless steel
Surface treatment:	Carbon steel – untreated, Stainless steel – acid pickled
Transported material:	Bulk material

30412 Cutting screw Ø350x46000 mm

Short Description

30412 Complete design, manufacturing and documentation

- Complicated design to adapt for upgrade on an existing production rig
- ATEX risk analysis performed – approved for zone 1
- Housing manufactured in acid proof stainless steel – 1.4401, acid pickled after welding
- Special hand lockers manufactured for easy un-installation of the top grid
- Planetary gear box with oil hydraulic motor
- Trial assembly performed in the workshop
- Tested with an oil hydraulic system in the workshop
- Packed and shipped to the client for direct transport and installation on the oil rig
