

30669 BEMA A/S Shredder

Specifications

Additional Information:

Product type:	Shredder
Industry:	Food industry, Process industry, Waste handling
Transported material:	Biomass, Bulk material, Insulation, Meat, Minerals, Paper and Cardboard, PET bottles, Food ingredients
Applied steel in product:	Carbon steel, Hardox plate, Stainless steel
Surface treatment:	Carbon steel – painted, Stainless steel – acid pickled

30669 BEMA A/S Shredder

Short Description

30669 Shredder for multi purpose of waste reduction

- Can be made in AISI 304/AISI316 for food certificate approval
- Can be made in carbon steel, with HARDOX knives for strong durabilities.
- Multi purpose use within many different industries for waste reduction
- Interchangeable knives – low maintenance
- Easy to operate and integrate in a transportation line
- The design of knives can be changed to a specific application

Manufacturing

- Robust construction manufactured in stainless steel or carbon steel/Hardox
- Each shaft supplied with its own gear motor
- Gearboxes shielded for cleaning
