

15107 Coated double screw

Specifications

Additional Information:

Product type:	Screw conveyor
Industry:	Offshore, Process industry
Applied steel in product:	Carbon steel, Hardox plate
Surface treatment:	Carbon steel – painted

15107 Coated double screw

Short Description

15107 Double screw conveyor

Heavy duty screw conveyor coated with composite material for protection against wear.

Features:

- Screw flights manufactured for gear function (close-coupled)
- The screw rotors are separated with gear wheels
- Manufactured in carbon steel, thick plates for wear resistance
- Painted and coated according to customer specifications
