

29603 2 pcs. conical screw rotors for biomass transportation

Specifications

Additional Information:

Product type:	Screw rotor
Industry:	Power plants
Transported material:	Biomass
Applied steel in product:	Carbon steel, Hardox plate
Surface treatment:	Carbon steel – untreated

29603 2 pcs. conical screw rotors for biomass transportation

Short Description

29603 Conical screw rotor for biomass transportation:

- Screw flights manufactured conical in Hardox-450 steel without heat treatment
- App. 10.000 mm. long.
- Surface protected with hard facing material – welded on the screw rotor in order to increase life time
- Self carrying innertube, which ensure no connection between the screw rotor and the housing
