

30228 Process Tank

Specifications

Additional Information:

Product type:	Process equipment, Silo / bin
Industry:	Food industry
Transported material:	Bulk material
Applied steel in product:	Stainless steel
Surface treatment:	Stainless steel – acid pickled, Stainless steel – grinded

30228 Process Tank

Short Description

30228 Process tank Ø1440×1875 for the food industry

- Manufactured in 1.4404/AISI-316L
- All welding inside grinded
- Build-in stirrer to ensure homogen temperature in the process
- Build-in stirrer for mixing ingredients in the beginning of the process
- Heat/cooling jacket integrated on the surface followed by insulation
- Acid pickled
- Equiped with process equipment for easy installation
