

6726 Transporation system for biomass

Specifications

Additional Information:

Product type:	Screw conveyor
Industry:	Recycling
Transported material:	Biomass
Applied steel in product:	Carbon steel
Surface treatment:	Carbon steel – painted

6726 Transporation system for biomass

Short Description

6726 Complete system for recieving of biomass

Transport and lifting up to a pressureized boilerunit.

Features

- Recieving unit for filling with a large grab
- Collecting unit
- Vertical feeding screw
- Manufactured in carbon steel
- Industrial design for long life time
