

23324 Pipe conveyor for paper pulp

Specifications

Additional Information:

Product type:	Screw conveyor
Industry:	Paper industry, Process industry
Transported material:	Bulk material, Paper and Cardboard
Applied steel in product:	Stainless steel
Surface treatment:	Stainless steel – acid pickled

23324 Pipe conveyor for paper pulp

Short Description

23324 Lifting screw for paper pulp:

- Designed for lifting and transport of paperpulp
- The gear motor is placed in the top for optimal drive conditions
- Designed for a specific industrial application

Information about application:

- Manufactured in stainless steel – 1.4401/AISI-316
- The inner pipe of the screw rotor is covered with stainless steel – see the picture. The inner pipe itself is manufactured in carbon steel.
