

20014 Feeding screw for heavy oil/bitumen

Specifications

Additional Information:

Product type:	Screw conveyor
Industry:	Offshore
Transported material:	Bulk material
Applied steel in product:	Carbon steel, Stainless steel
Surface treatment:	Stainless steel – acid pickled

20014 Feeding screw for heavy oil/bitumen

Short Description

20014 Feeding screw for heavy oil/bitumen

Industrial application.

Features

- Screw house in stainless steel – 1.4301/AISI-304
- Customer design fitted to an existing production application
- Double bearing design in the motor end to ensure free rotation of the screw rotor
- Screw rotor manufactured in standard steel
- Gear motor moved 500 mm. from the inlet to avoid heat transfer from the material (150 °C)
- Delivered ready to be installed in an existing application fast and easy
