

19224 High torque press screw

Specifications

Additional Information:

Product type:	Process equipment, Screw conveyor
Industry:	Insulation
Transported material:	Insulation
Applied steel in product:	Carbon steel, Hardox plate, Stainless steel
Surface treatment:	Carbon steel – painted, Stainless steel – acid pickled

19224 High torque press screw

Short Description

19224 Pressing screw for dewatering

Features:

- Cylindric and conical sil
- Easy acces with hinges
- Pneumatic adjustebel counter press
- Screwpress housing in stainless steel
- Screwpress rotor in HARDOX steel
- Complete with galvanized frame
