

10216 Ø200x1745mm HARDOX 400/Avesta 253MA

Specifications

Additional Information:

Product type:	Screw conveyor
Industry:	Insulation
Transported material:	Insulation
Applied steel in product:	Carbon steel, Stainless steel – heat resistant
Surface treatment:	Carbon steel – painted, Stainless steel – acid pickled

10216 Ø200x1745mm HARDOX 400/Avesta 253MA

Short Description

10216 Feeding screw for materials with temperature up to 600 degree Celcius

Flights in wearproof HARDOX 400 and high temperature resistant material Avesta 253MA.
Double bearings in inlet end to carry the screw rotor

Features:

- Changeable outlet end
- HARDOX 400 and Avesta 253MA screwrotor
- Heat resistant screw feeder machine
